Build a Podcast

A **podcast** is a digital audio file that can be downloaded. Often, they are available as a series!

Purpose:

Describe your topic in a way that is engaging, meaningful, and relevant that could be used to teach a peer who was absent for the topic.

Reminders:

- You will need a tool to record your voice such as your cell phone.
- Try to keep it between 2-5 minutes long. Speak clearly and minimize background noise.
- Write out your script first so you can organize what you are going to say.
- Use relevant vocabulary words, but remember that the purpose states your audience has not yet heard about the topic. Think about how you will introduce new vocabulary and concepts to them.
