

SCIENCE NEAR & FAR

Straight from the Sub-Arctic!

Please join us for this amazing interactive session, which will explore the use of local and international resources in Science explorations. We will be streaming live from the Polar Bear Capitol of the World in Churchill, Manitoba.

Participants can expect to:

- 🐾 Learn about life in the sub-Arctic from both a student and scientist perspective
- 🐾 Learn about current research and how to participate in these
- 🐾 Gain inspiration for using local natural resources to supplement Science topics and concepts
- 🐾 Gain inspiration for utilizing sub-Arctic experts and resources in your own classroom
- 🐾 Participate in fun activities during the sessions
- 🐾 Contribute ideas from your own school and community to an international audience!

Student Panel: Thursday, October 14, 2021

9:30 a.m. (CT)

Join youth from Churchill, Manitoba in this unique session all from a student's perspective. Discuss science based opportunities in your school yard and local community.

Expert Panel: Thursday, October 14, 2021

1:00 p.m. (CT)

Join our panel of sub-Arctic scientists from multiple science-based organizations and research facilities. Find out about the most current research, and how to get involved!
